

1. Cut out the Surfer Character. Make folds (away from you) along the white dotted lines, including the tabs. Fold the legs toward you and the knees away from you. Glue tab A to the backside of the Surfer's back. The character should be taking a rectangular shape.
2. Put glue on the 8 small tabs (four on each side) on the sides of the top of the Surfer's head. Then glue them to the backside of the Surfer's head. Make sure you hold each one in place for a few seconds before you move on. Next, glue tab B to the back of the side of the Surfer's head.
3. Cut out the left arm. Keep it connected in the middle and fold it in half. Bend the tabs toward you then you glue the backsides of the arm (leaving glue off the tabs) together. Be sure to not glue the tabs to each other. Repeat this with the right arm. Once the arms are dry, put glue on the open tabs and glue the arms to each side of the Surfer.
4. Cut out both ears. Keep them connected in the middle and fold them in half. Fold the tabs toward you, then glue the backsides of the ears (leaving glue off the tabs) together. Be sure not to glue the tabs to each other. Once the ears are dry, put glue on the backside of the open tabs and glue the ears to each side of the Surfer.
5. Design your own surfboard by choosing from two templates. You can print the surfboards out on cardstock. Have your child color one or both of the surfboards, then cut them out. Keep the surfboard connected in the middle and fold it in half. Glue the backsides of the board together. Cut out the fin, keeping it connected in the center. Fold in half at the center and glue the backsides of the fin together. Be sure not to glue the tabs together. Fold the tabs towards you along the dotted lines. Put glue on the open tabs and glue the fin to the back of the surfboard.

Your Surfer is now complete, dude! Place him on the edge of a shelf or table, or give him as a gift!
