

Origami Bunny

This very cute little bunny is fun all year round, but also makes the perfect Easter decoration for a greetings card or even an Easter tree! Perhaps you could use some double-sided sticky tape to attach him to a boiled egg for your Easter breakfast!

We have used googly eyes and a black marker to decorate our bunnies.

1. Start by folding your square in half diagonally, and creasing carefully.

2. Fold the triangle in half again, like this. Crease.

3. Open up the last fold, so that you once again have the larger triangle, as shown.

4. Carefully fold up the long edge of the triangle, about 1/4 of the distance. Crease well.

5. Fold one of the bottom corners up along the middle crease line.

Origami Bunny- Page 2

6. Your model should look like this.

7. Now fold the other corner up in the same way.

8. Flip the model over to the other side. Now turn the top corners down

9. Undo the fold you just made and reverse it - folding the points backwards and in towards the ears.

10. When you press the crease down, your model should look like this.

11. Flip the whole thing over again, and turn the bottom point up about 1/4 of the way, as shown. It can be a little tricky to do this as the paper will be stiff.

12. Turn the bunny back over again, and he is ready for a face!

If you are careful, you can stand your bunny up, using the last fold you made to balance him.
